

HenryGlass®

APERTURE CONTEMPORANEE

PRICE LIST _2023

Rev. 14 of the 01.07.2023

GENERAL TERMS OF SALE

The present general supply conditions, also available from the website www.henryglass.it, where they do not derogate from the special conditions expressly accepted in writing, regulate the supplies of HenryGlass srl, and are an integral and substantial part of all the agreements between HenryGlass srl (henceforth referred to as a Vendor) and the Customer. Any use and / or commercial practice that the client adopts that are different from the present sale conditions will not binding on HenryGlass srl.

1 DEFINITION OF THE ORDER

- 1.1 Orders have to be sent to HenryGlass srl by email at ordini@henryglass.it or by using the "graphic configurator of HenryGlass"..
- 1.2 As HenryGlass srl products are cutom-made and on request of the Client, once received the order, HenryGlass srl will examine it and rework it into a document where prices, qualities, goods and project / drawing descriptions are indicated. The document thus created will be forwarded to the Client who is required to confirm it by putting its stamp and signature.
- 1.3 Orders will constitute firm and irrevocable proposal of contract only after the Client has sent to Seller the document referred to in paragraph 1.2 with stamp and legible signature.

2 OFFERS

- 2.1 Every HenryGlass offer is valid for 40 days unless otherwise indicated in the offer.

3 PRICE

- 3.1 Prices are those indicated in the document referred to in paragraph 1.2.
- 3.2 Prices on the price list do not include VAT.
- 3.3 Prices on the price list are understood as follows: for Italy, they include shipping and handling, unless indicated otherwise in the confirmation of the order and / or in other written communications sent by the Seller; for countries rather than Italy, the prices do not include shipping and handling, unless indicated otherwise in the confirmation of the order and / or in other written communications sent by the Seller.
- 3.4 Possible other expenses will be listed on the order document.

4 PAYMENTS

- 4.1 Payments must be made within the terms and in the ways agreed upon, save for written agreements. The amounts listed on the invoice are due in full, without rounding and sums and without deductions of costs or any type of charges. Delays in payments give the right to the interest on delayed payments pursuant to the Italian Legislative decree 231/2002, without any communication of default action.
- 4.2 Delays and irregularities in payments and any other matter (complaints etc) not resolved on previous deliveries of goods, automatically authorize Henry Glass s.r.l. to suspend the order and / or deliveries in progress with express renunciation by the Client for any possible damages.
- 4.3 Under no circumstances shall the Customer be granted the right to suspend or delay payments, not even in cases of protest, complaint or disputes.

5 OWNERSHIP OF THE MERCHANDISE

- 5.1 HenryGlass srl reserves the right to the ownership of the merchandise pursuant to Article 1523 of the Italian Civil Code until the complete payment of the agreed upon price. The Seller is authorized to demand the return of the merchandise that has not been completely paid for, withholding what has already been paid as damages, save for the balance. In any case, the risk related to law or damage, for any reason of the merchandise, shall be the full responsibility of the Customer.

6 TERMS OF DELIVERY

- 6.1 The terms of delivery must always be considered as approximate and do not commit the Seller, unless stated explicitly otherwise.
- 6.2 Henry Glass s.r.l. pledges to do everything in its power to deliver the merchandise within the terms indicated on the order confirmation document; in any case, HenryGlass srl shall be responsible for any possible delays in the delivery that never give to the Customer the right to make requests for penalties and/or damages, to delay payments or refuse the merchandise.
- 6.3 Delivery may be extended or suspended in the event that the Customer is not compliant with the provision provided in accordance with article n. 4 of the present sales terms.
- 6.4 Any change requested in the production phase in the relieves the Seller from respecting the terms agreed upon; the Vendor may inform the Customer of the new delivery date.
- 6.5 A forced stop of production activities in Henry Glass factory, as well as manufacturing problems like difficuty in finding raw materials or energy, strikes or lock outs or any other event of force majeure directly or indirectly regarding the Seller's activities, exempt Henry Glass s.r.l. from the obligation of dispatching orders underway within the times indicated, suspending them and relieving them of any liability for direct or indirect damages.

7 DELIVERY AND TRANSFER OF RISKS

- 7.1 Notwithstanding that provided for with regard to transport expenses and/or means of payments, delivery to the Client and at the same time the passing of risks are intended as completed ex works HenryGlass srl, unless otherwise agreed. For international transport of goods, where indicated, Incoterms® 2010 clauses apply. In case of sale with free at destination or other equivalent clause, the customer shall not be entitled to compensation or idemnification for the transport in case it carries out collection on its own or at his own expenses.
- 7.2 If, before the deadline for each delivery, additional charges and/or costs due to changes in the cost of raw materials, labour, transport, customs and/or tax duties, and the like, the Seller expressly reserves the right to change prices, even if they may have already been confirmed, and in any case to a maximum extent of 20%.

8 COMPLAINTS

- 8.1 The merchandise must be examined immediately by the Customer upon delivery, verifying the entirety and its correspondence to the order and the accompanying documents. Complaints for incomplete and/or incorrect delivers, and/or for damaged merchandise, and/or for flaws and/ or deformities, have to be made no more than 8 days from the date of delivery; afterwards, the merchandise shall be considered for all intended purposes accepted. All the complaints must only and always be made in writing by registered letter or email with a confirmation of receipt, and it must be accompanied by the shipping document on which possible reservations made to the shipping agent on the document of the act receiving the merchandise are noted. The disputed merchandise must be made available for possible assessments and checks to be made by the Seller for no less than 20 (twenty) business days.
- 8.2 For complaints related to the visual quality of the product, the verification is carried out jointly by the Parties according to the "Guidelines for an assessment of visual quality of internal doors" written by Federlegno-Edillegno.
- 8.3 Fouded complaints in any case do not give to the Customer the right to suspend payments underway.
- 8.4 In the event that the complaint is recognized as founded by both Parties, Henry Glass s.r.l. undertakes to substitute the flawed or defective products, unless the Vendor decides otherwise due to objective reasons of the impossibility of replacing the goods. The Customer is responsible for any costs incurred for dismantling the defective products and for replacing them.

9 RETURNS

- 9.1 Possible returns of merchandise have to be preventively authorized in writing form by HenryGlass srl. It's customer care to pack the faulty merchandise that it has been authorized to return. The shipment of the collection is agreed between the Seller and the Client and shall be effected ex works Seller accompanied by the Customer's document stating all the details of the original purchase.
- 9.2 In the event HenryGlass srl authorizes the return and decides, before having verified the material of the Customer to preventively substitute the merchandise, this shall be invoiced according to the usual payment conditions. In the case of a well-founded complaint, HenryGlass srl does not proceed with any charge; otherwise, a regular invoice is issued with the cost of transport also being charged.

10 WARRANTY

- 10.1 The Seller guarantees its products from any manufacturing defects for a period of 24 months from the date of delivery to its customer, provided that the defect is reported within 8 days from the date on which the defect occurs, however within 24 months as above-mentioned. The warranty provides for the replacement of the products of which the Customer of Henry Glass s.r.l. provides incontrovertible proof of the manufacturing defect, while expressly excludes any request for compensation or damages for any reason.
- 10.2 Such warranty does not cover breaks of the glass door, unless it is manufacturing defect. The normal deterioration and wearing effect of products, in particular scratches and cracks, are furthermore excluded from the warranty and any responsibility of HenryGlass srl.
- 10.3 HenryGlass srl informs and the Customers recognizes that the illustrative samples of its own products have purely indicative characteristics and that the color of the glass or the wood depend on various parameters, such as the lot of the raw materials (even if they come from the same supplier), the widht and the dimensions of the glass, and the same characteristics of the environment where the glass is installed (colors of the walls, lighting, etc). Therefore, possible differences of tone/hue of color from the illustrative samples are not considered flaws and/or defects of the products.
- 10.4 With respect to the models provided, the Seller reserves the right to make all the changes believed to be worthwhile or necessary, without the customer raising any protest or considering the contract terminated or expecting any indemnity.

11 NON COMPETITION AGREEMENT AND CONFIDENTIALITY

- 11.1 It is absolutely forbidden for the Client to totally and/or partially reproduce items that have been purchased or seen. It is also absolutely forbidden to communicate news and information that allow for the reproduction of the same items.

12 VARIOUS PROVISIONS

- 12.1 The present contract is regulated by Italian Law. The parties agree that the applicable laws in force apply for that which is not expressly stated.
- 12.2 The customer has the obligation of providing the Seller all of its personal details, for the purposes of carrying out the contractual civil and fiscal obligations and of keeping the Seller updated on possible changes to such details. HenryGlass srl is exonerated from responsibility pursuant to the Article 21 of the Decree of the Italian Presidential Republic 633/72.
- 12.3 The Customer declares to have received the completed information pursuant to the current privacy provisions, and it expresses its consent to the processing and communication of its own personal details for administrative and accounting and for the duration stated in the information statement.
- 12.4 With respect to all disputes deriving from interpretation, execution and/or resolution of this contract, the Parties, prior to taking legal action before a judicial court or an arbitration panel, undertake mediation on a court established under law. 28/2010, having its registered office in Treviso, Italy, which administers such mediation according to its own Regulations in force. Should attempted mediation fail, the courts of Treviso shall be competent. However, HenryGlass reserves the right to say where the Customer has its registered office.

13 GENERAL CLAUSES

- 13.1 Failure to exercise any right deriving from the above provisions do not entail as forfeiture of such rights. Should any of the above provisions be declared null and/or void, such circumstance shall not imply that other provisions concerning the sales conditions be considered null and/or void, unless such provision constituted the essential and decisive reason for execution of the contract.

Suitable for indoor application only (wall / ceiling), it is resistant to impacts and easy to maintain.

Supplied in 1000 x 6000 mm rolls (bxh)

595,00 € / each

100,00 €/mq

shipping costs up to 3 rolls: € 45,00
from for 4 rolls shipping included

Material:

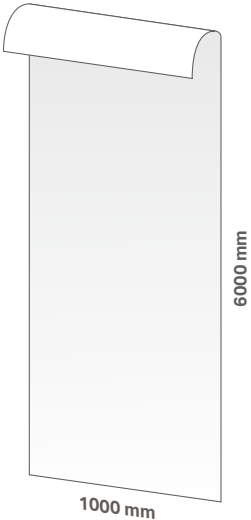

Non-woven fabric
(70% cellulose - 20% synthetic fibre - 8% additives))

100% PVC spread on the decorative side
of wich 4% flameproof components

Total weight (-/+): 380 g/m2

Total thickness (-/+): 0,34 mm

Fire reaction certification: Class B-s2, d0 - USA Class A

Impact resistant

Fir proof

Embossed surface

Application with glue

Washable

Removable

SUBSTRATE PREPARATION AND APPLICATION

The surface, on which Wallpaper will be applied, must be smooth and white in colour. Solid, absorbent and free from oils, surfactants, water and dust. Any flaking parts should be removed. If there are ceramic tiles present, treat the surface with a skimming coating to make it completely smooth, removing any grout lines.You can then proceed to apply the glue and lay Raw. Every sheet should adhere flush to the wall. The rolls should be aligned correctly, not too far from one another and not overlapping to ensure the continuity of the pattern.

STANDARD CLEANING AND STAIN REMOVAL

Cleaning the wall paper is quick and easy: just dilute a mild detergent in warm water and immerse a soft cloth in this solution, taking care to rinse the treated surface with clear water. To prevent stains and marks, it is also a good idea to immediately remove marks to prevent any reaction of the covering to colours or solvents which could permanently fade the surface. We recommend testing all detergents in a hidden area, before cleaning, to make sure they are compatible with the covering.

NOTES AND DIMENSIONAL LIMITS

1 - All the measurements shown on the price list are expressed in millimeters. Prices are in EURO and do not include VAT.

2 - The dimensions indicated in the price tables refer to the maximum dimensions of the finished door.

3 - The finishes of the various accessories and profiles are painted white, anodised aluminum, titanium anodised, mocha anodized, black anodized; consult the general catalog to check the available colors and any restrictions. The transparent knob is included in the price of the doors (where indicated); for other accessories, increase the price by referring to the tables "Increase for accessories". In the Manhattan line the Avenue handle is already included in the base price.

4 - In Classic, Vision and Absolute sliding doors on outer surface of wall, the basic prices include the standard size sliding kit (according to the calculations in the technical manual); for particular needs such as sliding system, track and longer valance, consult the "accessories increase" table.

5 - In Vitra and Manhattan sliding doors on outer surface of wall, the glass price is inclusive of the door and transparent knobs / Avenue handle but not of the sliding system that must be calculated separately by following the appropriate table "Slide kit" positioned below the "Base price" table.

6 - The Absolute and Vision visible sliding system for sliding doors on outer surface of wall are suitable for holes without frames.

7 - The disapperaing sliding door is designed to adapt to the Scigno ® Essential or Eclipse ® Syntesis box. For special needs or to check the adaptability to other models of metal boxes on the market, contact Henry Glass directly

8 - In the table "Surcharges for monolithic glasses" the price columns for frosted glass always refer to frosted / glossy glass. In the table "Surcharges for stratified glasses" the price columns relating to frosted glass always refer to glass in which both external surfaces are glossy.

9 - To ensure maximum customization, all lacquered glasses are double-sided so it is possible to combine on the two sides of the door glossy lacquered, frosted lacquered or mirrored colors.

10 - In the transparent or frosted stratified glass, the two tempered glasses are joined by a plastic interlayer with a total thickness of 0.76 mm; in the covering lacquered laminated glass, the plastic interlayer has a thickness of 0.38 mm.

11 - In reflective glass the reflectance is placed only on one of the two sides (priority view).

12 - The mat lacquered glass doors with mirrored finish or mirrored decoration, can be made with a maximum width of 1200 mm and a maximum height of 2800 mm. The mirror doors, being tempered, may not be perfectly flat; therefore a slight deformation of the mirrored image must be considered normal.

13 - In the mirrored decorations the decorations can be made in silver mirror (not in bronze or graphite mirror) while the bottom can be made with all the standard or RAL lacquering; it is also possible to make the mirror base and the lacquered decoration.

14 - The colors available for RAL lacquering must be selected from the RAL Classic folder.

15 - The HG500V glass pull handle is available in the entire range of covering and mirror lacquered colors. The two-sided version, that is with the two sides personalized by different colors / finishes, is allowed only in the glass doors and not in the Adela line wooden doors.

16 - The Essential subframe is a system patented exclusively by the company Scigno ® S.p.A. and is a registered trademark of the same company Scigno ® S.p.A.
The Syntesis counterframe is a system patented exclusively by the company Eclipse ® S.p.A. and is a registered trademark of the same company Eclipse ® S.p.A.

17 - The alignments between the decorations of adjacent doors of the same size are not normally guaranteed, while the alignment between the decorations of adjacent doors with different sizes is absolutely not guaranteed.

18. The alignments between the decorations of adjacent doors of the same size are not normally guaranteed while the alignment between the decorations of adjacent doors of different sizes is absolutely not guaranteed.

N.B.

Stratified glass 5+5 mm: palstic film EVA of 0,76 mm; stratified lacquered glass 5+5 mm: plastic film EVA da 0,38 mm
Tempered process and polished edge included.
Surcharges for shaping: +20% (compared to the base price).
Glass dimensional limits: width from 400 mm to 1300 mm, height from 1200 mm to 2800 mm (excluding tapestries for which the maximum limit in width is 600 mm and in height is 1800 mm).
For requests for double glazing other than tapestries, contact the Henry glass sales office directly.

For the choice of the most suitable glass to be used it is essential to consider the place and the position of the laying, the intended use, the size of the products, the type of assembly, the stresses that are expected will affect the glasses. As far as safety is concerned, comply with the provisions of the current directives, and in particular with the UNI 7697 standard of May 2014.
